

THE SUSTAINABLE  
DEVELOPMENT GOALS

COLORING  
BOOK

2020

## WELCOME TO THE SUSTAINABLE DEVELOPMENT GOALS COLORING BOOK

Our world is facing a major transition to a more sustainable world. It is therefore crucial that everyone, regardless of age, language, level of education or any other factor has access to information about sustainable development, and the many perspective it includes.

The idea of this colouring book came to be after we found that there was a lack of resources and material for children to use as a source for a more complex discussion about sustainability. This book is meant to inspire children and others to learn about the many perspectives about sustainability.

## WHAT ARE THE SUSTAINABLE DEVELOPMENT GOALS?

In 2015, world leaders agreed to 17 Global Goals (officially known as the Sustainable Development Goals or SDGs). These goals have the power to create a better world by 2030, by ending poverty, fighting inequality and addressing the urgency of climate change. Guided by the goals, it is now up to all of us, governments, businesses, civil society and the general public to work together to build a better future for everyone.

## HOW TO USE THESE ILLUSTRATIONS

These illustrations can be used by anyone who wishes to learn more about the Sustainable Development Goals or sustainable development in general.

The illustrations can be used as a collection or separate to stimulate discussions about sustainable development. They can also be used as a regular colouring book with beautiful illustrations.

Use your creativity and come up with your own version of the illustrations. All illustrations feature the number of the goal its representing.

## ILLUSTRATORS

These illustrations have been created by a group of illustrators from the Nordic region. Each illustrator was asked to create their own unique illustration, matching their unique vision and artistic style. This is why the illustrations differ in style as we wished to reflect the diverseness of the group.

The coloring book was created by SDSN Youth in Northern Europe and the Gothenburg Centre for Sustainable Development.

## Share with others

When you are finished colouring, why not share it with others? This could help spread the word about the Sustainable Development Goals - to teach others, to inspire for a better future and to fill the world with colours.
